ONE-STOP SERVICE OF MULTIPLE TRADESPEOPLE

The start of the year has been a busy and productive time for JNS. We've delivered a wide range of residential and commercial projects, completing several over the past month while also kicking off some exciting new work. It's especially rewarding to see completed jobs leading to further projects with returning clients. As we move further into spring, we're looking forward to building on this momentum and continuing to support both new and existing customers.

REFURBISHMENT

Completed project – Full refurbishment, Tenterden, Kent

One of our key completed projects last month was a full commercial refurbishment in Tenterden, Kent. The property, previously home to the Elizabeth Rose retail shop for many years, has now been transformed into a new office premises for Burfields House Wealth Management Ltd. The JNS team carried out a complete strip-out before delivering all aspects of the refurbishment, including electrics, plumbing, carpentry, painting and decorating, flooring, glass partition installation, and a full builders clean ready for opening. The finished space is cohesive in style with the company's other premises, featuring a modern touch that creates a welcoming and convenient environment for their clients. The upstairs also boasts a stunning conference room available for hire for meetings and events. Check out Tollgate Life for more information.

Commercial property- Goudhurst, Kent

Following the successful completion of the Tenterden refurbishment, we were pleased to be asked to carry out works at one of Burfields House Wealth Management Ltd's Goudhurst sites. This project focused on refreshing the existing space, with a full programme of painting and decorating to bring the property back to life. Care was taken to ensure the updated interior remained consistent with the company's overall style, creating a cohesive look across their locations. The result is a fresh, welcoming, and stylish environment, ready to receive clients.

We're also pleased to share that, following these works, we have been asked by Burfields House Wealth Management Ltd to carry out refurbishments at another of their Goudhurst sites. This project is now nearing completion, and we look forward to presenting the finished result in our next newsletter.

Residential property- Maidstone, Kent

The team have completed a full ground floor refurbishment of a large residential property in Maidstone, transforming the layout to better suit modern living. The project involved structural alterations, including removing internal walls and installing steel supports to create a more open and functional space. The redesigned layout now features a cinema room, open-plan kitchen, larder, laundry room, cloakroom, and a dedicated sensory play room, among other additions. Particular attention was given to the main living areas, ensuring a consistent style and seamless finish throughout the space.

The project ran smoothly from start to finish thanks to the team, with works including bifold door installation, plumbing, brickwork, electrics, lighting, and full painting and decorating. This coordinated approach ensured quality and consistency at every stage. The end result is a thoughtfully designed, highly functional, and stylish living space – a true forever home for our client, built to be enjoyed for years to come.

Completed project – Barn conversion, Kent

One of our recent projects involved the transformation of a disused barn into a fully functional and inviting space. Once dark, dirty, and unused, the building has been completely renovated into a fresh, bright, and spacious man cave, designed around our client's vision. The finished space now includes a fully fitted kitchen, a modern shower room, and a stylish mezzanine floor, creating a versatile and comfortable environment.

It's a great example of how we can turn underused spaces into something practical and enjoyable. We carried out all aspects of the work, including plumbing, flooring, lighting, painting and decorating, as well as the full installation of the kitchen and shower room. Managing the project from start to finish ensured a smooth process and a consistent high standard throughout. The completed conversion has not only created a highly functional additional space for the client, but has also added significant value and versatility to the property.

New commercial project– starting soon!

We are excited to be starting a new project soon for a company looking to carry out a full refurbishment of their office space. The premises have not been updated for some time, and the aim is to completely revitalise the environment, creating a space that is welcoming and comfortable for clients, while also being inspiring and inviting for staff on a day-to-day basis.

Our team will be focusing primarily on the installation of new kitchen and bathroom facilities, while our designers have been developing plans to ensure a fresh, modern feel throughout. Careful consideration has been given to incorporating the company's existing style and colours, resulting in a cohesive and well-balanced design. The team are looking forward to getting started and bringing this project to life.

Media Wall - Maidstone

Following the successful completion of a bathroom fit-out, we were pleased to be invited back by the client to carry out further works, including the installation of a media wall in their living room. Our team produced a digital design to give the client a clear idea of how the finished feature will look, helping to shape the overall vision. Our carpenter has been working on the build this week, bringing the design to life and creating a stylish and functional focal point for the space. Images of the completed project will be shared soon.

We've recently received some fantastic reviews on Google, and we'd like to extend a big thank you to everyone who has taken the time to share their feedback. Your support not only means a great deal to us but also helps our business gain visibility online and builds trust with future clients.

If we've completed work for you and you have a couple of minutes to spare, we'd really appreciate a quick review. Simply scan the QR code – your feedback truly makes a difference!
