NEWSLETTER

ONE-STOP SERVICE OF MULTIPLE TRADESPEOPLE

Welcome to our March Newsletter. As we move into March and the first signs of spring start peeking through we're excited to share the latest updates from JNS. In this edition, we'll highlight some of our recent projects and provide an overview of the developments happening across our electrical and building services. We're also looking ahead to what's on the horizon and how we plan to continue delivering high-quality solutions for our clients. Thank you for your continued trust and support, we're looking forward to another productive month ahead.

Sevenoaks – Large Residential Electrical Installation.

Our team has been working diligently at a beautiful property in Sevenoaks, where we've successfully completed the first fix stages and are now well into the second fix. This stunning old cottage is undergoing major renovations, including the addition of a beautiful modern extension.

Every project presents its challenges, but we always find solutions and ensure we deliver our services to the highest standards. We look forward to sharing the final images once all fixtures and fittings are in place.

London, Regent Street – Quadrant Arcade Throwback

During a site visit in London last week, we had the chance to pass by one of our past projects at Quadrant Arcade, Regent Street. A couple of years ago, we installed all the lighting for this stunning space, enhancing its contemporary design and adding to the prestige of this iconic mall. It was lovely to see it in action.

Maidstone – Garage Conversion

This month, we've kicked off a garage conversion project in Maidstone. Interestingly, we completed the same project for the property next door, and our work was so well-received that the client kindly recommended us to their neighbours. So far, we've stripped the space, prepped the area, started the brickwork, screeded the floor, and cut out the doorway. Next, we'll be installing the first fix electrics, including the underfloor heating. We can't wait to share the before and after images on our socials once the project is complete!

Gravesend- HMO Project

We've recently begun work at a large property in Gravesend, where we're involved in converting it into a 9-bedroom HMO and a two-bedroom basement flat. Our team is currently well underway with the first fix electrics and plumbing including fire detection and door access control.

This is an exciting project with significant potential, and we're proud to be part of it. With such a large-scale transformation underway, we're focused on ensuring all installations are carried out to the highest standards. Keep an eye out for updates on our socials as we continue to make progress!

10% off deal extend for another month- Car chargers

We're excited to extend our 10% discount for another month! If you're considering an installation, now is the perfect time to take advantage of the offer.

Our skilled team is here to guide you through the process, offering expert advice on the best options and locations to ensure your charger is installed exactly where you need it for easy access and maximum convenience.

Get in touch with us this month to secure your discount!

South London- Archway Units

Members of our JNS Team have recently completed an exciting project in London, where we converted and refurbished four archway units to create a stunning space for a high-end car showroom. It's always rewarding to work on unique projects like this, where creativity and attention to detail play such a key role in the final result. We're proud of the transformation and the new space that's now ready to showcase luxury cars.
