ONE-STOP SERVICE OF MULTIPLE TRADESPEOPLE

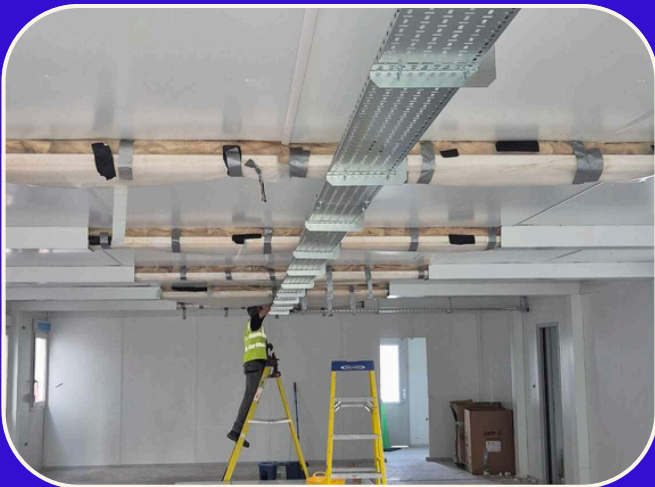

Here we are in October already! Many of the projects our team has been working hard on are now wrapping up, while several exciting new ones are just getting underway. Some of these new jobs are already moving at pace, with completion expected in time for the lead-up to Christmas. It's an exciting time at JNS, so be sure to check out the latest highlights and see what we've been working on. As always, thank you for your continued support.

MONTHLY HIGHLIGHTS

EXPO 2025

COMMERCIAL
ELECTRICAL FIT-OUT

RESIDENTIAL
EXTENSION PROGRESS

EXPO 2025– Kent Events Centre– Detling

At the start of the month, we proudly attended the Kent Construction Expo for the second year running. The team put a lot of effort into designing and setting up our stand, and we were thrilled with the results – not to mention the fantastic feedback from those who stopped by for a chat.

We had the pleasure of meeting some brilliant people and making valuable new connections. It was a great experience, and we're really glad we took part again this year.

Kitchen Fit-out, Headcorn, Kent

At a residential property in Kent, we recently completed a garage conversion for a valued client. They were so pleased with the results that they invited us back to carry out further works, including a kitchen fit-out and electrical installations. We're currently boarding the loft for them and installing a new loft ladder, with more improvements planned in the near future.

Residential property extension Yalding, Kent

We've been building a single-storey extension at a beautiful cottage in Yalding, Kent. The project is progressing well, and we've now fitted the roof trusses, preparing for the next stage of the build. Once complete, the extension will provide additional space that complements the charm and character of the original cottage.

Roof repairs- Bearsted, Maidstone

The JNS Team have been working on repairing a leaking roof for a client. Unfortunately, previous works carried out by another company had led to water ingress over time. Our team have now identified the cause of the issue and are carrying out the necessary repairs to make the roof watertight once again.

Isle of Grain, Unipa Power Station- Office electrical first and second fix

Isle of Grain Power Station Update

Members of our electrical team have been working at the Isle of Grain Power Station, carrying out first and second fix electrical installations for the site's new office facilities including power and data.

MONTHLY UPDATE

OCTOBER 2025

We are hiring !

Join the JNS Team.

We're currently looking for Electricians, Electrical Improvers, and Labourers to join our team. If this sounds like you – or you know someone who might be interested – please get in touch with our team for more details.

SCAN THE CODE

We've received some fantastic reviews on Google recently, and we just want to say a big thank you to everyone who's taken the time to share their feedback. Reviews like these really help our business get seen online and build trust with future clients.

If we've carried out work for you and you've got two minutes to spare, we'd be incredibly grateful if you could leave us a quick review. Just scan the QR code – your feedback means a lot to us!
